

Introduction to Denticon - Clinical

# **Periodontal Charting**

# 

# Contents

Accessing the Periodontal Chart	3
Changing the View on a Periodontal Chart	6
Completing a Periodontal Chart	8
Adding Additional Notes to the Periodontal Chart	12
Viewing Previous Periodontal Charts	13
Comparing Multiple Periodontal Charts	14

# Accessing the Periodontal Chart

From the main Denticon window, click **Scheduler** in the toolbar.

There are two ways to access the periodontal chart from here:

# Option 1

Right-click the **patient's appointment**, hover over **Go To**, then select **Perio Chart** from the list.

# Option 2

## Step 1

Left-click the **patient's appointment** to highlight it, then click the **Restorative Chart** icon in the toolbar.

## Step 2

Select the **Perio Chart** tab.

**Note:** Once a periodontal item is selected, the chart will highlight the cells that require a value entering.

#### Step 3

There are two ways to enter numerical values on the periodontal chart:

Note: To chart a bleeding point, type the letter **B** on your keyboard. Similarly, to chart suppuration, type the letter **S** on your keyboard. To remove bleeding or suppuration, click on the affected area and click **Off** or type **0** (zero) on your keyboard.

Note: Implants are available for charting. In this example, third molars have been marked as missing and are therefore unavailable for charting.

#### **Option 1**

Use the number pad on the screen.

# Option 2

Type the numbers using your keyboard.

A periodontal chart is now complete.

# Adding Additional Notes to the Periodontal Chart

#### Step 1

# Step 2

Click Exam Details.

The chosen periodontal chart will now display.

# **Comparing Multiple Periodontal Charts**

#### Step 1

Step 2

To measure patient progress, from the Perio Chart tab, click the **Compare by Dates** dropdown.

# Select up to **three chart dates** using the dropdown menu, then click **Compare**.

Multiple periodontal charts have now been compared.
